(*) Please note that resource stockpiling for the War Effort Event won't work on Vanilla Reforged. Materials already collected by players will be added to the AQ War Effort resource targets. For example, if players have a total of 50,000 Runecloth and 50,000 Runecloth Bandages, 100,000 Runecloth Bandages will be added to the the War Effort resource target once the event starts.

This same logic will apply to **every** other War Effort resource target.
